

- Q.28 What are the safety measures to be adopted by driver during the operation on tractors?
- Q.29 Write names of different tractor/ farm machinery testing stations of India.
- Q.30 Explain the power steering system.
- Q.31 Describe the various functions of tyre and also write causes of tyre wear.
- Q.32 What should be the pre starting and daily check-ups for tractor?
- Q.33 Explain the working of mechanical brake system of tractor.
- Q.34 Write a short note on camber and caster angle.
- Q.35 Explain the procedure for estimating the cost of operation of a tractor.

SECTION-D

- Note:** Long answer type questions. Attempt any two questions out of three questions. (2x10=20)
- Q.36 Describe the function and constructional details of differential and differential lock.
- Q.37 Draw the periodic maintenance chart of the tractor.
- Q.38 Describe the working principle of hydraulic system of a tractor with neat sketch.

Subject:- Farm Tractor

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Which of the following does farm mechanization reduces?
- a) Pollution b) Corruption
- c) Farm mechanization d) All the above
- Q.2 Which type of clutch has got number of thin metal plates, arranged alternately to work as driving and driven members?
- a) Dog clutch b) Multi plate clutch
- c) Single plate clutch d) Fluid coupling
- Q.3 The power required to run the engine at any given speed without production of useful work is called_____.
- a) PTO HP b) Indicated HP
- c) Drawbar power d) Friction Power
- Q.4 Inflation pressure of rear tyre of tractor is_____
- a) 0.8 to 1.2 kg/cm² b) 1.2 to 2.0 kg/cm²
- c) 2.0 to 2.5 kg/cm² d) 2.5 to 5.0 kg/cm²

- Q.5 Negative plate of lead-acid battery of tractor is made of _____.
 a) PbSO_4 b) H_2SO_4
 c) PbO_2 d) Pb
- Q.6 Loss of value of a machine with the passage of time is called _____.
 a) Hiring cost b) Interest
 c) Ply rating d) Depreciation
- Q.7 Tractor transmission oil should be changes at every _____.
 a) 100 hrs b) 300 hrs
 c) 500 hrs d) 750 hrs
- Q.8 Ballasting in rear tyre of tractor is done for
 a) Decreasing traction b) Increasing traction
 c) Prevent overturning d) All of these
- Q.9 _____ is an index of the tyre strength.
 a) Tire rating b) Ply rating
 c) Ballasting d) All of these
- Q.10 Part of tractor transmission system provided with standard externally splined shaft at the rear end of the tractor, used to attach thresher, movers etc.
 a) PTO shaft b) Final drive
 c) Drawbar d) Rear axle

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Tractor
 Q.12 ISO
 Q.13 Power train
 Q.14 Cage wheel
 Q.15 Toe-in and toe-out are related to _____.
 Q.16 Radiator
 Q.17 Cage wheel
 Q.18 Farm mechanization
 Q.19 Farm power
 Q.20 PTO shaft

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Enlist various controls and gauges on tractor.
 Q.22 What are the factors to be considered for right selection of a tractor?
 Q.23 Write a short note on draft control system.
 Q.24 How would you maintain battery in a tractor?
 Q.25 What is farm mechanization? Write any four scope of farm mechanization.
 Q.26 What is the principle of hydraulic system?
 Q.27 Discuss different methods of ballasting with suitable diagram.
