

1st Year / Ceramic Tech.

Subject : Basics of Ceramics Engineering

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Glass composition contains which of the following oxides?
- | | |
|-------------------|----------------------------|
| a) SiO_2 | b) Al_2O_3 |
| c) CaO | d) All of these |
- Q.2 The formula of Dolomite is:
- | | |
|--|--|
| a) $\text{MgCO}_3 \cdot \text{CaCO}_3$ | b) $\text{BaCO}_3 \cdot \text{BeCO}_3$ |
| c) $\text{BaCO}_3 \cdot \text{MgCO}_3$ | d) $\text{BeCO}_3 \cdot \text{CaCO}_3$ |
- Q.3 Physical agents of weathering are:
- | | |
|--------------|--------------------|
| a) Wind | b) Running glacier |
| c) Sea Waves | d) All of these |
- Q.4 Which planet farthest from the Sun?
- | | |
|----------|------------|
| a) Pluto | b) Saturn |
| c) Mars | d) Neptune |
- Q.5 Which one of the following is not part of Earth's system?
- | | |
|----------------|----------------|
| a) Atmosphere | b) Lithosphere |
| c) Nano sphere | d) Hydrosphere |
- Q.6 Which of the following is a rock?
- | | |
|--------------|-----------------|
| a) Silicon | b) Slate |
| c) Limestone | d) Both (b) & c |

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Define igneous rock.
- Q.8 Name any two raw materials used in glass.
- Q.9 State the chemical formula of Aluminium Oxide.
- Q.10 Name one major glass industry in India.
- Q.11 Write the formula of boric acid.
- Q.12 Name any two physical agents of weathering.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Enlist the two raw materials of glass and mention their functions.
- Q.14 Explain the term “Work of atmosphere.”
- Q.15 Describe the formation of igneous rocks.
- Q.16 State any two theories about the origin of the Earth.
- Q.17 Explain the internal structure of Earth briefly.
- Q.18 Classify igneous rocks based on silica content.
- Q.19 What is wind erosion? Explain.
- Q.20 Classify sedimentary rocks based on grain size.
- Q.21 How deposition occur by the action of sea waves?
- Q.22 Describe Earth as a planet.

(2)

180417

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Explain geological work of glaciers.
- Q.24 How the sedimentary rocks are formed? Explain their classification.
- Q.25 Describe important parts of the Earth in detail.

(3)
