

- Q.6 Which of the following oxide is fluxing agent
 a) Al_2O_3 b) As_2O_2
 c) Na_2O d) None
- Q.7 Which of the following is acidic oxide?
 a) Silica b) Soda
 c) Lithia d) Potash
- Q.8 _____ increase density of glass.
 a) Silicon dioxide b) Sodium oxide
 c) Lead oxide d) Alumina
- Q.9 Blow pipe is used to make _____.
 a) Flat ware b) Bottle
 c) Hollow d) All of these
- Q.10 Alumina increase the _____ of glass.
 a) Durability b) Expansion
 c) Solubility d) Weight

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Crown to glass tank furnace is of silica refractory bricks. (True/False)
- Q.12 God feeder is used to collect _____ of glass.
- Q.13 Glass has sharp melting point. (True/False)
- Q.14 Silica is glass former. (True/False)
- Q.15 Sand is main raw material of glass. (True/False)
- Q.16 Broken glass pieces are also called as cullet. (True/False)
- Q.17 Recuperators are used to recover waste heat. (True/False)

- Q.18 Melting temperature of furnace is controlled by pyrometers. (True/False)
- Q.19 Alumina increases the devitrification tendency of glass. (True/False)
- Q.20 Glass hardness is measured by Moh's Scale. (True/False)

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Explain importance of regenerators in glass making.
- Q.22 What is fluxing agent? Explain function of fluxing agent in glass.
- Q.23 Write a short note on Silica & Soda Ash.
- Q.24 Describe General properties and compositions of glass.
- Q.25 Write the function of dog house and bridge wall in a tank furnace.
- Q.26 Name various types of furnaces used in glass industry.
- Q.27 Discuss the purpose or uses of chimney draft.
- Q.28 Differentiate Glass tank furnace and pot furnace.
- Q.29 Explain Glass melting process in brief.
- Q.30 Discuss role of regenerators in glass industry.
- Q.31 Discuss fundamental concept of glassy state.
- Q.32 Enlist the physical properties of glass.
- Q.33 Explain factors influencing the choice of batch materials for glass?
- Q.34 What is cullet? Describe function of cullet in glass.
- Q.35 Name five raw materials and oxide supplied by them.
