

- Q.32 Explain the various colour schemes and safety color codes which are prevalent in industries.
- Q.33 Discuss in brief the major points for the renewal of boiler certificate.
- Q.34 Explain in brief about the occupational diseases and health hazards due to thermal exposure.
- Q.35 Explain in brief about Job Safety Analysis.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Explain in detail about purpose and provision of Indian Boiler Act 1923.
- Q.37 Define an accident. Discuss the various causes of accidents. Briefly state the various observation of safety specialists regarding the causes of accidents.
- Q.38 Write short note on any two of following.
- Floor area ratio.
 - Ceiling value and units of concentration
 - Ventilation
 - Hazard analysis and risk assessment.

No. of Printed Pages : 4

Roll No.

5th Sem / Chem Subject:- Plant Safety

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Which of the following is not included in Class A materials?
- Wood material
 - Propane material
 - Plastic material
 - Paper material
- Q.2 Full form of STEL is
- Short term exposure limit
 - Short time exposure limit
 - Short term expansion limit
 - Short time expansion limit
- Q.3 First stage of risk assessment is
- To know source of risk
 - Hazard management
 - Remediation of contaminated sites
 - To evaluate hazard and minimize risk
- Q.4 Full form of PPM is
- Parts per million
 - Per parts million
 - Per past million
 - Parts per mean

- Q.5 Fire is a combination of
 a) Fuel, light, oxygen b) Fuel, heat, oxygen
 c) Fuel, heat, carbon d) Fuel, light, carbon
- Q.6 Full form of PPE is
 a) Private protective equipment
 b) Personal protective equipment
 c) personal protest equipment
 d) Private protest equipment
- Q.7 Which of the following chemical is responsible for acute lung disease from Bhopal gas tragedy?
 a) Methyl Isocyanate b) Methyl Cyanate
 c) Ethyl Isocyanate d) Ethyl Cyanate
- Q.8 Full form of CWA is
 a) Clear water Act b) Clean waste Act
 c) Clear waste Act d) Clean water Act
- Q.9 Toxicity is characteristics by
 a) Instability b) Dosage
 c) volume d) Temperature
- Q.10 Gloves eliminate or reduce the chance of injury from
 a) Cuts and scratches b) Dust
 c) Excessive noises d) Falling object

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Write full form of HARA.
 Q.12 Define unsafe Act.
 Q.13 What is fire tetrahedron?
 Q.14 Define threshold limit value.

(2)

180555/120555

- Q.15 What is fire towers?
 Q.16 Expand B.O.D.
 Q.17 Name any one toxic material.
 Q.18 Name any one health hazard caused by radiation.
 Q.19 What is food guard.
 Q.20 Name any one toxic material.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Explain about artificial humidification.
 Q.22 Explain about fire triangle.
 Q.23 Discuss the general safety considerations of pressure vessels.
 Q.24 Discuss briefly about the function of safety department in a chemical industries.
 Q.25 Discuss briefly about the health hazards due to radiation.
 Q.26 Write a short note on industrial toxicology.
 Q.27 Discuss briefly about maximum allowable concentration with reference to toxic chemical used in industry.
 Q.28 Discuss briefly the soil pollution caused by industries.
 Q.29 What are the main caused of occupational dermatoses?
 Q.30 Classify the different types of fire extinguishers.
 Q.31 Explain in brief personal protective equipments used by workmen in industries.
