

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Explain the principle and procedure of PAS staining method?
- Q.37 Explain and draw the microscope with principle, parts and uses.
- Q.38 Write a detailed account of different fixatives used in Museum technique?

No. of Printed Pages : 4

Roll No.

181944/121944/

031934/1932/031944

4th Semester/ DMLT

Subject: Histopathology & Cytology-II

Time : 3 Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Most popular alcohol used for dehydration is?
- a) Industrial Alcohol b) Methylated spirit
- c) Both A & B d) Ethanol
- Q.2 The tissue decomposition by the action of enzyme is called?
- a) Putrefaction b) Autolysis
- c) Both I & II d) None
- Q.3 Which is commonly used mounting media?
- a) Canada Balsam b) Permount
- c) DRX d) Clarite
- Q.4 Which one is used to magnify the extremely small objects _____.
- a) Contrifuge machine
- b) Water bath
- c) Microscop
- d) None of the above

(880)

031934/1932/031944

- Q.5 Which one are abnormal cells
 a) Red Cells b) White cells
 c) Platelets d) Malignant cells
- Q.6 The tissue taken for diagnosis from the dead body is?
 a) Biopsy b) Autopsy
 c) Tissue d) All above
- Q.7 FNAC is ____.
 a) Fine needle aspiration cytology
 b) Fine needle separation cytology
 c) Five needle cytology
 a) None
- Q.8 After section cutting knife should be
 a) Dry b) Oiled
 c) Both A & B d) None
- Q.9 _____ is used as a mordant in hematoxyline stain
 a) Hematoxyline b) Eosin
 c) Alum d) None
- Q.10 Study of diseased cells and tissue is known as ____?
 a) Hematology b) Microbiology
 c) Histopathology d) None of these

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Define cytology.
 Q.12 What are malignant cells?

- Q.13 Full form of HCG is _____.
 Q.14 Expand H & E and AFB.
 Q.15 Give the use of condenser in light microscope.
 Q.16 What is cytospin.
 Q.17 Give the name of gas used in freezing microtomy?
 Q.18 Increase in temperature will _____ the decalcification.
 Q.19 Define a museum?
 Q.20 Anesthesia is required in FNAC. True/False

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Draw a labelled diagram of microscope.
 Q.22 What is cytological stain? Give two names.
 Q.23 Write the composition of Kaiserling solution I?
 Q.24 Write the procedure of smear preparation.
 Q.25 Write a short note on Automation?
 Q.26 Give the composition of Jenkins fluid?
 Q.27 Name the equipment used for the autopsy?
 Q.28 Give a brief account of Barr body staining?
 Q.29 Differentiate between normal and malignant cells?
 Q.30 Write a note on Aspiration cytology?
 Q.31 Give the principles of dark field microscopy?
 Q.32 Write the principles of gram staining method?
 Q.33 Explain frozen section cutting in brief.
 Q.34 Give a brief account of Masson's trichome stain.
 Q.35 Write the application of microscope in Histopathology.
