

- Q.29 Give a brief account of wet pretreatment for any one blend of polyester.
- Q.30 What is hemp? Write some of its uses.
- Q.31 Write the proportion of different components in silk.
- Q.32 Give name of any four fluorescent brighteners.
- Q.33 Draw a machine for scouring wool in loose form.
- Q.34 Suggest recipe and process conditions for piece scouring of wool.
- Q.35 Give a brief account of wet pretreatment for cellulose acetate.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Discuss the preparatory wet processing of major manmade fibres.
- Q.37 Explain the bleaching process of wool with hydrogen.
- Q.38 Write short note on the following:
- Bleaching of P/V blend
 - Bleaching of Nylon

No. of Printed Pages : 4
Roll No.

182642/122642/032642

4th Semester/ Text. Proc., Text Chem. Subject : Technology of Bleaching-II

Time : 3 Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 In Grey Inspection we check.
- Stains
 - Cut
 - Length
 - All of these
- Q.2 Bleaching is the process
- Dimensional
 - Luster
 - Absorbency
 - None of these
- Q.3 Parameters for Scouring are
- pH
 - Temp.
 - Conc.
 - All of these
- Q.4 Parameters for fiber dyeing are
- Type of package
 - Type of yarn
 - Package density
 - All of these
- Q.5 We go for _____ desizing efficiency.
- Color
 - Hairy fibers
 - Weight loss
 - None of these

(20)

(4) 182642/122642/032642

(1) 182642/122642/032642

- Q.6 Production in a process house may be
 a) Continuous Process b) Batch Process
 c) Semi continuous d) All of these
- Q.7 The process in Kier machine is
 a) Continuous Process b) Batch process
 c) Drying d) All of these
- Q.8 For making process continuous we use
 a) J-Box b) Padding Mangale
 c) Washing Unit d) All of these
- Q.9 Jet dying Machine is for
 a) Continuous Process b) Batch Process
 c) Semi continuous d) None of these
- Q.10 Drying can be done by
 a) Cylinder b) Hot flue
 c) Float d) All of these

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 _____ (scouring/ Souring) is done in Kier.
- Q.12 _____ (Alkalization / Neutralization) is the process in souring.
- Q.13 _____ (Sizing / Desizing) is the process of application of starch etc.

(2) 182642/122642/032642

- Q.14 Heat setting is the process for _____ (dimensional stability / Alkalization)
- Q.15 The fabric should be plain during _____ (winding / unwinding) on batch.
- Q.16 Package density should be uniform in package dyeing machine. True/False
- Q.17 Steam leakage should be there in Kier. True/False
- Q.18 In a process house quality is checked at each stage. (True/False)
- Q.19 Singeing is the process of removal of _____.
- Q.20 Seam detector detects the _____.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Explain one of the following
 a) Vertical creases b) Listedness
- Q.22 What is solvent scouring?
- Q.23 Differentiate between solvent and emulsion scouring.
- Q.24 Explain the bleaching process of wool with hydrogen.
- Q.25 Where and how is coir used?
- Q.26 Write a note on impurities of wool?
- Q.27 Write short note on carbonizing of wool?
- Q.28 How the scouring of wool is carried out.

(3) 182642/122642/032642
