

No. of Printed Pages : 4
Roll No.

189044

Level 4, 2nd Sem / SD

Subject : Computer Networks

Time : 2 Hrs.

M.M. : 50

SECTION-A

Note: Very short answer Questions. Attempt all ten questions. (10x1=10)

- Q.1 The data layer lies between _____ layer and _____ layer.
- Q.2 What is meant by computer Network.
- Q.3 Define the term protocol.
- Q.4 What is meant by Internetworks.
- Q.5 What is the use of Application layer in OSI model.
- Q.6 Define IP address.
- Q.7 Class B has _____ number of bits to identify the host part.

Q.8 How many bits a MAC address has?

Q.9 WAN stands for_____.

Q.10 Name the layer which is end to end layer.

SECTION-B

Note: Short answer type questions. Attempt any six questions out of Eight questions. (6x5=30)

Q.11 Differentiate between LAN and WAN.

Q.12 Explain different classes of IP addresses.

Q.13 Explain in brief how data packets are handled.

Q.14 Write down the various functions of data link layer

Q.15 Write a short note on MAC Techniques.

Q.16 Write down the various functions of transport layer

Q.17 Explain the format of IPV4 addresses.

Q.18 Discuss about Application Layer Protocols and Services.

SECTION-C

Note: Long answer type questions. Attempt any one questions out of two questions. (1x10=10)

Q.19 Explain why layering is required in data communication architecture and discuss the functions of various layers of OSI model.

Q.20 Explain Communication Model. Explain its working with the help of diagram.
