SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 The system of irrigation where in water is supplied drop by drop near the roots of plants, is called
- a) Sprinkler system b) Pulley system
- c) Drip system d) Lever system
- Q.2 _____ is an example of leguminous crop.
- a) Cotton b) Wheat
- c) Rice d) Pulses
- Q.3 The seed treatment materials are used as
- a) Dry powder b) Slurries
- c) Dips d) All the above
- Q.4 _____ is the process of scattering / spreading seeds of the agricultural field.
- a) Planting b) Seedling
- c) Broadcasting d) Production
- Q.5 Which of the following is not a harvesting method?
- a) plucking b) Reaping
- c) Digging d) Drilling

- Q.6 The tag colour of foundation seeds
 a) White b) Golden yellow
 c) Purple d) Red
- Q.7 For seed bed preparation, implements used _____.
 a) Primary tillage implement
 b) Secondary tillage implements
 c) Both of these
 d) None of these
- Q.8 _____ refers to the application of biological, physical and chemical agents and techniques that can be applied to seeds to provide them protection.
 a) Seedling b) Seed drill
 c) Seed treatment d) Seed placement
- Q.9 Most critical stage of irrigation for wheat is:
 a) Crown Root Initiation (CRI) stage
 b) Tillering stage
 c) Flowering stage
 d) Harvesting stage
- Q.10 The term used for the process of separation of grains from chaff is:
 a) Threshing b) Sieving
 c) Hand picking d) Winnowing

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Give name of any fertilizer.

(2) 180131/120131/030131

- Q.12 Hoe is used for _____.
 Q.13 Rabi season is from _____ to _____.
 Q.14 _____ crops are sown for nitrogen fixation in soil.
 Q.15 Give name of any oilseeds crop.
 Q.16 Write name of any cash crop.
 Q.17 the falling down of crop due to untimely rain and strong winds is known as.
 Q.18 In 1960 _____ was brought about in India to make it self-sufficient in grains.
 Q.19 Define Sowing.
 Q.20 Write one harmful effect of weeds.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 What is crop rotation? Also write down any three advantages of crop rotation.
 Q.22 List out the methods of irrigation.
 Q.23 How the crop production is a science. Briefly discuss.
 Q.24 What is the need and importance of seed treatment?
 Q.25 Explain how the farmers can maintain the soil fertility in the agricultural field.
 Q.26 What are the different types of methods of tillage? Briefly explain.
 Q.27 Describe the factors that affect the crop production.
 Q.28 Define intercultural operations. Also write down any three importance of intercultural operation.
