

- Q.5 Which device is used to measure the solar radiation flux. (CO5)
- a) Pyrometer                      b) Sunshine recorder
- c) Anemo meter                  d) All of the above
- Q.6 Death due to electrical shock is called? (CO4)
- a) Electrocution                  b) Heart attack
- c) Brain failure                   d) None of the given
- Q.7 The total power across four PV cells of 0.5 V connected in series when a cell = 1A is (CO1)
- a) 2.0 Watt                          b) 0.5 Watt
- c) 2.5 Watt                          d) 1.0 Watt
- Q.8 LED lamp rated 5W is on for 40 minutes and TV of 60 W is on for 2 hours. How much energy has been used? (CO2)
- a) 69 Wh                              b) 360 Wh
- c) 123 Wh                            d) 960 Wh
- Q.9 What is the function of charge controller? (CO2)
- a) Stores energy                  b) Regulates voltage
- c) Converts AC to DC          d) None of the above
- Q.10 PPE stands for (CO2)
- a) Personal Protection Equipment
- b) Power Production Efficiency
- c) Personal Process Evaluation
- d) Power Panel Efficiency

## SECTION-B

**Note:** Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Define solar panel. (CO1)
- Q.12 Name the device which interface the solar panel and solar charge controller. (CO2)
- Q.13 Enlist any two types of solar power generation systems. (CO2)
- Q.14 Expand MPPT. (CO2)
- Q.15 Define solar tracking system. (CO5)
- Q.16 The most widely used solar material is \_\_\_\_\_. (CO1)
- Q.17 Write one function of solar charge controller. (CO2)
- Q.18 List one point to handle hazardous material during PV installation. (CO4)
- Q.19 Define personal management. (CO3)
- Q.20 Write one function of Net Metering in PV system. (CO1)

## SECTION-C

**Note:** Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Write site survey and evaluation of various parameters of PV installation. (CO1)
- Q.22 What are the main features of solar photovoltaic system. (CO2)
- Q.23 List different tools for installation and maintenance of PV system. (CO1)
- Q.24 Describe occupational health and safety assessment during solar installation. (CO4)
