 - Vitamin K
 - Vitamin E
 - Beta-carotene
- Q.3 Which of the following is NOT an artificial sweetener?
- Sucralose
 - Stevia
 - Ascorbic acid
 - Saccharin
- Q.4 What are the high-protein foods essential for?
- Building muscle mass and repairing tissues
 - Increasing blood sugar levels
 - Reducing cholesterol levels
 - Providing quick energy
- Q.5 Which organization regulates the labeling of organic and genetically modified (GM) foods in many countries?

- a) World Health Organization (WHO)
 - b) Food and Drug Administration (FDA)
 - c) Environmental Protection Agency (EPA)
 - d) United States Department of Agriculture (USDA)
- Q.6 Which of the following health conditions can be prevented or managed by consuming an adequate amount of dietary fiber?
- a) Obesity
 - b) Type 2 diabetes
 - c) Hypertension
 - d) Both a & b
- Q.7 What are some key considerations when formulating geriatric foods?
- a) High fiber content
 - b) Low protein content
 - c) Ease of digestion and absorption
 - d) High caffeine content
- Q.8 Which of the following is an example of a nutrient commonly added to fortified foods?
- a) Sugar
 - b) Sodium
 - c) Iron
 - d) Trans fats
- Q.9 What is the significance of vitamin D in geriatric nutrition?
- a) It supports immune function
 - b) It aids in calcium absorption and bone health
 - c) It helps maintain healthy vision
 - d) It regulates blood sugar levels.
- Q.10 What types of foods are typically rich in antioxidants?
- a) Processed foods
 - b) Fast foods
 - c) Fruits, vegetables, nuts, and seeds
 - d) Sugary snacks

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Anti-carcinogenic foods can prevent the development of cancer. (True/False)
- Q.12 Hypocholesterolemia foods help in reducing high cholesterol levels in the body. (True/False)
- Q.13 Low energy foods provide a quick source of energy for athletes. (True/False)
- Q.14 Artificial sweeteners have no calories and are therefore suitable for weight loss diets. (True/False)
- Q.15 Geriatric foods are specially formulated for young children to meet their nutritional needs. (True/False)
- Q.16 Prebiotics are live microorganisms found in certain foods that improve digestion. (True/False)
- Q.17 Symbiotic food contain both prebiotics and probiotics to enhance gut health. (True/False)
- Q.18 Fortified salts and oil are examples of foods commonly enriched with essential nutrients. (True/False)
- Q.19 Enriched juices and health drinks typically contain added vitamins, minerals, or other nutrients. (True/False)
- Q.20 Organic foods are always free from genetically modified organism(GMOs). (True/False)

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 What is the current status of health and functional foods in India.
- Q.22 Why are nutraceuticals important for health?
- Q.23 What are the properties of anti-carcinogenic foods?
