

- Q.6 Which of these is not a immunoglobulin
 a) IgM b) IgA
 c) IgD d) IgX
- Q.7 Study of fungi is known as
 a) Virology b) Mycology
 c) Cytology d) None of these
- Q.8 Culture media commonly used for fungi is
 a) CMA b) SDA
 c) Corn starch agar d) Blood agar
- Q.9 Which one is used to diagnose HIV and hepatitis.
 a) ELISA b) Widal
 c) Both A & B d) None of these
- Q.10 _____ immunoglobulin is found in allergic conditions
 a) IgE b) IgA
 c) IgD d) IgM

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Why HIV screening is important.
- Q.12 Expand BHI Agar.
- Q.13 Name two different types of widal tests?
- Q.14 Hypha is a part of ____.
- Q.15 Name the cells provide immunity?
- Q.16 Explain BHI & SDA.
- Q.17 Why Immunity is important for humans?

- Q.18 Name the example of antigen antibody reaction.
- Q.19 Which antibody helps in fighting against parasitic infections?
- Q.20 Widal Test is done for ____.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 How will you collect nail sample for fungal identification?
- Q.22 Write the classification of medically important fungi.
- Q.23 Give the difference between innate and acquired immunity.
- Q.24 Write a short note on lab diagnosis of Aspergillosis.
- Q.25 Write a note on antigen-antibody reaction?
- Q.26 How will you inoculate fungus in clinical lab?
- Q.27 Write down the principle ELISA test.
- Q.28 Give the composition of BHI culture media.
- Q.29 Explain the mechanism of acquired immunity.
- Q.30 What are the different function of antibodies?
- Q.31 Give the classification of antigens?
- Q.32 Why microbiology is important in our daily life.
- Q.33 Write the types of Antibodies.
- Q.34 Write down the principle and procedure of CRP test.
- Q.35 Write a short note on precipitation reaction.
