

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 Describe the mock leno weave and its visual effect, with diagram.
- Q.24 Write in detail about the various satin and diamond weaves and their construction.
- Q.25 Explain the purpose and method of drafting, lifting and denting with graph illustrations.

No. of Printed Pages : 4

Roll No.

1st Year / Textile Design. Subject : Structural Fabric Design-I

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 The vertical threads in a woven fabric are called
- a) Picks b) Warp
- c) Loops d) None
- Q.2 Which weave is known for its diagonal pattern?
- a) Satin b) Matt
- c) Twill d) None
- Q.3 Which one is NOT a double cloth type?
- a) Self-Stitched b) Center-Stitched
- c) Pointed twill d) Treble Cloth
- Q.4 The fabric structure used in pique creates
- a) Luster b) Open effects
- c) Raised textures d) None

Q.5 Which cloth has a tubular form due to its weave structure?

- a) Patola b) Center stitched cloth
- c) Treble cloth d) None

Q.6 Denting refers to

- a) Lifting the heddles
- b) Arranging warp threads in reed dents
- c) Looping weft yarn
- d) Cutting fabric ends

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 _____ weave is known for its shiny appearance and long floats. (Plain/ Satin)

Q.8 Define Mock Leno.

Q.9 In center weft stitching , the layers are joined by _____ threads. (Warp/ Weft)

Q.10 Sponge weave is used to create absorbent fabrics. (True/ False)

Q.11 Twill weave has no visible pattern. (True / False)

Q.12 What is a lifting plan?

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Differentiate between satin and sateen weaves.

Q.14 What are the functions of denting and peg plans?

Q.15 Explain how a center warp stitched double cloth is formed.

Q.16 Explain the structure and use of huckaback weave.

Q.17 Compare brightened honey comb and simple honey comb.

Q.18 Discuss the structure of sponge weave and its purpose.

Q.19 Describe the process of beaming in warp preparation.

Q.20 Explain ribbed and hopsack structures as plain weave derivatives.

Q.21 What is a pointed twill and where is it used?

Q.22 Describe the importance of design repeat and peg plan in drafting.
