Level 5, 1st Sem / DVOC (Medical Imaging Tech.)

Subject : Soldering & De-soldering of Components - I

Time : 2 Hrs.

M.M. : 50

SECTION-A

Note: Very short answer Questions. Attempt all ten questions. (10x1=10)

- Q.1 What do you mean by soldering tool?
- Q.2 What solvent is used for cleaning of a PCB.
- Q.3 What is 60/40 in solder wire.
- Q.4 What is the use of wet sponge at soldering station?
- Q.5 What do you mean by general purpose PCB?
- Q.6 What is cold continuity of PCB?
- Q.7 What is used to avoid oxidation during soldering.
- Q.8 What is the most common hazard of soldering?

Q.9 What is the rule of handling soldering iron?

Q.10 SMD stands for_____

SECTION-B

Note: Short answer type questions. Attempt any six questions out of Eight questions. (6x5=30)

Q.11 Write the uses any five soldering tools.

Q.12 What is the difference between welding and soldering?

Q.13 Write short note on soldering station.

Q.14 What are different types of soldering tips? Write their uses.

Q.15 Write the procedure of preparing components for soldering.

Q.16 Write the safety precautions while soldering and de-soldering.

Q.17 Write short notes on medical services.

Q.18 Differentiate between discrete and SMD components.

SECTION-C

Note: Long answer type questions. Attempt any one question out of two questions. (1x10=10)

Q.19 What do you mean by soldering and de-soldering ? Write the advantages, disadvantages and applications of soldering.

Q.20 Write short note on any two:

- a) Types of PCB.
- b) Joining of broken PCB track.
- c) SMD components.
