

SECTION-D

No. of Printed Pages : 4

189221

Roll No.

Note: Long answer type questions. Attempt any one questions out of two questions. (1x10=10)

Level 3, 2nd Sem / Food Processing

Subject : Introduction to Food Processing

Q.19 Describe the process of canning of vegetables.

Q.20 Explain different methods of thermal processing.

Time : 2 Hrs.

M.M. : 50

SECTION-A

Note: Multiple Choice questions. All questions are compulsory. (5x1=5)

Q.1 Generally colored fruit juices are preserved by which chemical preservative?

- a) KMS b) Calcium carbide
- c) Sodium benzoate d) Vinegar

Q.2 Which of the following method of pasteurization is most recent?

- a) UHT
- b) HTST
- c) Batch pasteurization
- d) In-bottle pasteurization

- Q.3 The process of fermentation produces _____
- a) Alcohol b) Acid
- c) CO₂ d) All of the above
- Q.4 The process of heating food after chilling is called _____
- a) Dehydration b) Osmosis
- c) Tempering d) Thawing
- Q.5 The process of removal of moisture under controlled condition of temperature, humidity and air is called as _____
- a) Drying b) Dehydration
- c) Osmosis d) Solar drying

SECTION-B

Note: Objective type questions. All questions are compulsory. (5x1=5)

- Q.6 Blanching is process of inactivation of _____
- Q.7 Feed activities that are used to minimize mold contamination and prevent mold growth _____

(2)

189221

- Q.8 Proteins that protect the body when unwanted substances enter in the body are called _____
- Q.9 Device used to introduce gases into bioreactors _____
- Q.10 _____ is fruit jelly in which the shreds of peels are suspended.

SECTION-C

Note: Short answer type questions. Attempt any six questions out of Eight questions. (6x5=30)

- Q.11 Briefly explain basic functions of fermentor.
- Q.12 Explain the principle of pulsed electric field.
- Q.13 Explain about blanching, Highlight the advantages of blanching.
- Q.14 Explain about pasteurization and its types.
- Q.15 Explain principles of food preservation.
- Q.16 Explain different methods of low temperature preservation.
- Q.17 Explain the mechanism of osmotic dehydration.
- Q.18 Briefly explain about organoleptic evaluation of food.
