

Q.28 Find the back bearings of the following lines whose fore bearings are:

Line For Bearings

AB	47°45'
BC	153°15'
CD	237°30'
DE	338°15'

Q.29 What is offsetting? Explain different types of offsets.

Q.30 Define the following :

- | | |
|-----------------|--------------------------|
| a) contour | b) contour interval |
| c) Contour Line | d) horizontal equivalent |
| e) Contouring | |

Q.31 Write short note on Primary Division of Surveying.

Q.32 The magnetic bearing of a line AB is 157°15' respectively. What will be the true bearing if the declination is 3°15'W.

Q.33 List the advantages and disadvantages of Compass Surveying.

Q.34 Name and explain the different equipments used in plane table surveying with neat sketches.

Q.35 Define chain and explain Metric Chain with neat sketch.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

Q.36 Write the characteristics of contours with sketches.

Q.37 Name and explain various instruments used in chain surveying with sketches.

Q.38 Give the classification of surveying on the basis of following factors:

- | | |
|---------------------|--------------------|
| a) object of survey | b) nature of field |
| c) instrument used | d) method employed |

No. of Printed Pages : 4

Subject:- Surveying / Surveying - I

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

Q.1 In a Reduced Bearing System, bearing is measured from_____.

- | | |
|--------------------------------|---------|
| a) Nearest one(North or south) | |
| b) South | |
| c) East | d) West |

Q.2 _____ meridians are used in surveying.

- | | |
|------|------------------|
| a) 2 | b) 3 |
| c) 8 | d) None of these |

Q.3 What is the Principle of survey?

- | | |
|----------------------------|--|
| a) Traversing | |
| b) Triangulation | |
| c) Work from Whole to part | |
| d) Work from part to whole | |

Q.4 What is the length of metric chain?

- | | |
|----------------|----------------|
| a) 5 m & 20 m | b) 10 m & 20 m |
| c) 15 m & 20 m | d) 20 m & 30 m |

Q.5 In a contour plan, the contour lines when meet at a place then it is known as_____.

- | | |
|-----------|----------------------|
| a) Cliff | b) Hill |
| c) Valley | d) Overhanging cliff |

Q.6 The lines joining the points of equal elevations on the surface of the earth are known as_____.

(200)

(4) 180236/120236/030236

(1) 180236/120236/030236
