

- Q.29 Give the requirement of good braking system (CO3)
 Q.30 Describe various braking lining material (CO3)
 Q.31 Give the advantage and disadvantage of hydraulic brake (CO3)
 Q.32 Explain the disc brake with diagram (CO4)
 Q.33 Explain airbag safety system (CO5)
 Q.34 Describe the working of anti lock braking system (CO5)
 Q.35 Enlist the steps of Preventive design (CO5)

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Describe the construction and working of Telescopic shock absorber (CO1)
 Q.37 Describe the various methods of wheel balancing with diagram (CO2)
 Q.38 Give the principle, construction and working of hydraulic brake with diagram (CO3)

No. of Printed Pages : 4

5th Sem / Auto

Subject:- Chasis, Body and Transmission - II

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Principle of Telescopic shock absorber is (CO1)
 a) Tyre friction b) fluid friction
 c) Piston friction d) Mass
- Q.2 Air spring consist of _____ with compressed air. (CO1)
 a) Rubber bag b) beans bag
 c) Jute bag d) none of these
- Q.3 Two general types of tyre are (CO2)
 a) Tube Type and tubeless
 b) Solid and tubeless
 c) Air & pneumatic
 d) None of the above
- Q.4 Tyre 145/70, R12 designation on the tyre means (CO2)
 a) Rim diameter is 70 mm
 b) Rim diameter is 12 inches
 c) Rim diameter is 12 mm
 d) Rim diameter is 145 mm

- Q.5 Suspension system provides _____ effects against Road roughness (CO1)
 a) Cushioning b) hardness
 c) Roughness d) None of above
- Q.6 Wheels specification told us about (CO2)
 a) Width of rim b) type of rim
 c) Diameter of rim d) all of above
- Q.7 A tandem master cylinder has (CO3)
 a) One piston b) two piston
 c) Three piston d) No piston
- Q.8 In air hydraulic brakes _____ pressure is converted into hydraulic pressure. (CO4)
 a) Liquid b) air
 c) Both d) None of these
- Q.9 Full form of TCS is _____ (CO5)
 a) Traction control system
 b) Tata company system
 c) Twin control system
 d) None of the these
- Q.10 Full form of EBD is _____ (CO5)
 a) Electric bike Duke
 b) Electronic brake distribution
 c) Essential break distribution
 d) None of these

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Upturned is _____ Spring eye (CO1)
 Q.12 Define sprung weight (CO1)
 Q.13 Beads of the tyre are made up of _____ wire (CO2)
 Q.14 Bias ply tre are also known as _____ tyre (CO2)
 Q.15 Wishbone is the type of _____ suspension system (CO1)
 Q.16 Braking system is used to _____ the vehicle (CO4)
 Q.17 Define tyre 'HR' speed rating. (CO3)
 Q.18 Master cylinder is used in _____ brake (CO3)
 Q.19 Term bleeding is used in _____ brake (CO4)
 Q.20 ABS is termed as _____ (CO5)

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Describe independent suspension system. (CO1)
 Q.22 Explain different function of suspension system (CO1)
 Q.23 Define Brake Dip and Wind up (CO3)
 Q.24 Explain the wish bone arm suspension system (CO2)
 Q.25 Explain different types of wheels. (CO2)
 Q.26 Give the comparison between tube tyre and tubeless tyre (CO2)
 Q.27 Draw the layout of air brake system (CO4)
 Q.28 Describe the various causes of excessive tyre wear (CO2)
