

- Q.26 Define Virtualization and its types.
- Q.27 List various characteristics of Cloud Computing.
- Q.28 Define SAN and its benefits.
- Q.29 Define Virtual Machine and its types.
- Q.30 Write at least five benefits of Storage As a Service.
- Q.31 What are the various security issues in cloud Computing? How to handle these issues?
- Q.32 List various advantages and disadvantages of community cloud.
- Q.33 What are the various benefits of virtualization??
- Q.34 Define Hypervisor. Explain different types of Hypervisors.
- Q.35 List various privacy and legal issues in cloud computing.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.37 Explain various service models in detail.
- Q.37 Explain different types of scheduling methods in cloud computing.
- Q.38 Write a note on :-
a) Data Security b) SLA management

No. of Printed Pages : 4
Roll No.

180854A/170854A

5th Semester/ Comp Subject : Cloud Computing

Time : 3 Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 SMTP stands for ____.
- Software Mail Transfer Pipe
 - Service Mail Transfer Protocol
 - System Mail Total Protocol
 - Simple Mail Transfer Protocol
- Q.2 FCFS is ____.
- First Can First Scheduling
 - Full Come Full Serve
 - First Come First Serve
 - Full Cost Full Serve
- Q.3 In order to participate in cloud computing you must be using ____.
- Windows
 - Mac OS
 - Linux
 - All of the mentioned

- Q.4 API stands for ____.
- Application Programming Interface
 - Architecture Planning Interface
 - Apple Phone Interface
 - Amazon Planning interface
- Q.5 IaaS is also called as ____.
- CaaS
 - PaaS
 - HaaS
 - SaaS
- Q.6 Cloud in cloud computing represents ____.
- Wireless
 - Hard drives
 - People
 - Internet
- Q.7 Which of the following is the Cloud Platform provided by Amazon?
- AWS
 - Cloudera
 - Zeure
 - All of these
- Q.8 Which of the following is not a property of a cloud computing?
- Composability
 - Virtualization
 - Both A & B
 - None of the above
- Q.9 Which of the following terms refers to the management and location of cloud infrastructure?
- Application
 - Service
 - Deployment
 - None of the above
- Q.10 Which of the following are features of cloud computing?
- Security
 - Large Network Access
 - Availability
 - All of these

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Two Cloud service Providers are ____ and ____.
- Q.12 Private Cloud is most secure. (True/False)
- Q.13 Community cloud is bigger than public cloud. (True/False)
- Q.14 IaaS is also called Hardware as a Service. (True/False)
- Q.15 Google Docs is a type of cloud computing. (True/False)
- Q.16 Two Deployment models in cloud are ____ and ____.
- Q.17 VM stands for ____.
- Q.18 What is the name of Microsoft cloud?
- Q.19 Vendor lock-in is disadvantage of Cloud Computing. (True/False)
- Q.20 An internet connection is necessary for cloud computing interaction. (True/False)

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Explain evolution of cloud computing.
- Q.22 Write a note on Hypervisor.
- Q.23 Explain infrastructure security in cloud Computing.
- Q.24 List disadvantages of Public cloud.
- Q.25 Explain private cloud model along with its advantages.
