

No. of Printed Pages : 2 180944/170944/120944
Roll No. /030944

4th Sem / Elect, Power Station Engg., Elect. & Eltx Engg.
Subject:- Electrical Engineering Design and Drawing-II

Time : 3Hrs. M.M. : 100

SECTION-A

Note: All questions are compulsory

- Q.1 i) Name the different types of earthing used as per Indian Standard. (CO3) 2 marks
- ii) Write the methods of reducing earthing resistance. (CO2) 3 marks
- iii) Why are the metals frames of electrical apparatus earthed. (CO2) 5 marks
- iv) What is the factor on which the value of earth resistance depends? (CO2) 5 marks
- Q.2 Draw the schematic and wiring diagram for the 3 phase induction motor getting supply from two selected feeders. (CO1) 25 marks

OR

Draw the schematic and wiring diagram of Automatic Star Delta Started for a three phase induction motor. (CO1)

- Q.3 Draw the schematic and wiring diagram of sequential operation of two motors using time delay relay. (CO1) 20 marks
- Q.4 Draw the key diagram of the 11KV/440 substation along with symbols used for different equipment. (CO4) 20 marks
- Q.5 a) Explain the following AUTOCAD commands (CO3) 10 mark.
- i) Exit
- ii) Move
- iii) Explode
- iv) Import
- v) Rotate
- b) Draw the schematic diagram of lighting system of conference room. (CO3) 10 marks.
