Roll No.

4th Semester/ Food Tech. Subject : Food Fermentation Technology

Time : 3 Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Tempeh is fermented product of _____.
a) Soyabean b) Rice
c) Wheat d) Corn
- Q.2 During manufacture of wine, the crushed grape used as raw material is called _____.
a) Wort b) Ale
c) Hops d) Must
- Q.3 Beer is fermented beverage obtained from _____.
a) Rice b) Cereal wort
c) Corn d) Wheat
- Q.4 Fermentor in idli fermentation is _____.
a) Leuconostoc b) Saccharomyces
c) Both 'A' & 'B' d) None of the above
- Q.5 Single cell protein is _____ protein
a) Bacteria b) Yeast
c) Algae d) All of these

- Q.6 Propionic acid is active against growth of _____ in bread.
- a) Yeasts b) Molds
c) Both A & B d) None of the above
- Q.7 Which of the following is a non-distilled fermentation product?
- a) Beer b) Rum
c) Tequila d) Whisky
- Q.8 _____ are responsible for bitterness in beer
- a) Broken rice b) Tapioca
c) Hops d) Cereal adjunct
- Q.9 Fermentation involves the growth of _____ mo's in food product.
- a) All b) Selective
c) Thermopiles d) LAB
- Q.10 Sparkling wine got its name due to the presence of excess of _____.
- a) Flavour b) Carbon dioxide
c) Alcohol d) None of these

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (10x1=10)

- Q.11 Miso is originated from _____.
- Q.12 Dry wine is _____ (Sweet / Not sweet)
- Q.13 Alcohol content of rum is _____.
- Q.14 Wine is fermented product of _____.

(2) 181144/121144/031144

- Q.15 The sour taste of vinegar is due to _____
- Q.16 Sauerkraut is a fermented product made from _____.
- Q.17 A device used in a bioreactor to introduce gases in a liquid is called _____.
- Q.18 Dhokla is prepared from _____.
- Q.19 Baker's yeast is _____.
- Q.20 Sausage is a fermented product made from _____.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Mention the steps involved in production of curd.
- Q.22 Describe the procedure of "Spread plate technique" for isolation of pure culture.
- Q.23 Briefly explain the steps involved in production of baker's yeast.
- Q.24 Briefly explain about sauerkraut and its nutritional importance.
- Q.25 Explain fermentation and its types.
- Q.26 Explain nutritive value of fermented foods.
- Q.27 Briefly explain distilled and non distilled beverage with example.
- Q.28 Write the advantages of fermentation.
- Q.29 List the microorganisms used as a source for production of single cell protein.
- Q.30 Explain the steps involved in production of tempeh.
- Q.31 Briefly explain the method of buttermilk manufacturing.
