

Q.25 Briefly explain Time division multiplexing.

Q.26 Explain Hart communication protocol.

Q.27 Discuss Ethernet and LAN.

Q.28 Draw explain general telemetry system.

Q.29 What do you mean by wireline channels?

Q.30 Give the difference between AM and FM.

Q.31 Explain ASK.

Q.32 Write down about time division Multiplexing.

Q.33 Draw Neat Block diagram of data communication.

Q.34 Explain Force balance type pneumatic transmitter.

Q.35 Write a short note on Fibre optic communication.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

Q.36 Draw and explain P.A.M in detail.

Q.37 Explain Amplitude shift keying and frequency shift keying in detail.

Q.38 Describe Electric Transmitter in detail.

No. of Printed Pages : 4

181545/121545/031545

Roll No.

4th Sem / IC

**Subject:- Industrial Communication /
Principles of Telemetry**

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

Q.1 PDPT bellow type transmitter is a _____

- a) pneumatic Transmitter
- b) Electric Transmitter
- c) Hydraulic Transmitter
- d) None of these

Q.2 GPIB has _____ Bus signals

- a) 24
- b) 22
- c) 18
- d) 20

Q.3 The conversion of Digital to Analog signal is called the _____

- a) Quantization
- b) Decoding
- c) Encoding
- d) Modulation

Q.4 For long distance communication which modulation is mostly suited.

- a) FM
- b) PAM
- c) AM
- d) FDM

- Q.5 AM/FM is type of telemetry system
 a) Landline b) RF
 c) Both d) None
- Q.6 Main function of Receiver in communication is to _____
 a) to reduce cross talk
 b) to reject unwanted signal
 c) to improve gain
 d) to improve fidelity
- Q.7 P.C.M stand for _____
 a) Pulse coded multiplexing
 b) Pulse convolution Modulation
 c) Pulse coded Modulation
 d) None of these
- Q.8 Industrial Telemetry is authorized in which band
 a) L b) S
 c) P d) M
- Q.9 In which modulation, amplitude of carrier signal is varied by modulating signal.
 a) FM b) PAM
 c) AM d) PCM
- Q.10 Which of the following is a landline telemetry system?
 a) PCM b) FDM
 c) Ratio telemetry d) AM

(2) 181545/121545/031545

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Expand ASK.
- Q.12 FM has better noise immunity then AM. (True/False)
- Q.13 Mention one Application of FDM.
- Q.14 Give one advantage of PCM.
- Q.15 Mention one Hydraulic transmitter.
- Q.16 Mention one difference between PCM and FDM.
- Q.17 Current telemetry is an example of landline telemetry. (True/False)
- Q.18 Expand TDM.
- Q.19 ASK need more Channel bandwidth then FSK. (True/False)
- Q.20 Write the full form of PDPT.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 What is telemetry? Give its application.
- Q.22 Discuss Position telemetry system with its diagram.
- Q.23 Explain resistive transmitter.
- Q.24 Give applications of data communication.

(3) 181545/121545/031545
