Roll No.

1st Year / MLT
Subject : Basic Chemistry

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Which of the following is a primary alcohol?
- a) Isopropanol b) Ethanol
- c) Acetone d) Diethyl ether
- Q.2 Which alcohol is commonly known as wood alcohol?
- a) Ethanol b) Methanol
- c) Glycerol d) Butanol
- Q.3 Which of the following is a disaccharide?
- a) Glucose b) Fructose
- c) Sucrose d) Cellulose
- Q.4 Diethyl ether is commonly used as :
- a) Antiseptic b) Disinfectant
- c) Anaesthetic d) Solvent in food

Q.5 Which class of enzymes breaks down proteins?

- a) Amylases b) Lipases
- c) Proteases d) Oxidases

Q.6 Cholesterol belongs to which class of compounds?

- a) Carbohydrates b) Proteins
- c) Lipids d) Enzymes

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 Methanal is commonly known as _____.

Q.8 Glycerol is a trihydric alcohol. (True/False)

Q.9 Match the following.

- a) Monosaccharide _____ i. Starch
- b) Disaccharide _____ ii Glucose
- c) Polysaccharide _____ iii. Maltose

Q.10 The molecular weight of a protein is determined by its _____.

Q.11 Lipids are hydrophilic in nature. (True/False)

Q.12 The enzyme that breaks down starch is called _____.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Write two uses of ethyl alcohol.

Q.14 What is the difference between aldehydes and ketones?

Q.15 Define primary secondary and tertiary amines.

Q.16 Mention two clinical uses of enzymes.

Q.17 List two important disaccharides and their components.

Q.18 Define triglycerides and state their biological importance.

Q.19 Mention any two essential amino acids.

Q.20 Write any two differences between monosaccharides and polysaccharides.

Q.21 Define carbohydrates and list two dietary sources.

Q.22 What are phospholipids and why are they important?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Describe the classification structure, properties and uses of alcohols with reference to methyl alcohol, ethyl alcohol & glycerol.
