

- Q.29 Write about Arrhenius concept of acids and bases.
 Q.30 Discuss types of catalysis.
 Q.31 What do you mean by aromatic compounds.
 Q.32 Give general formula of alkenes and its uses.
 Q.33 Give uses of acid and alkalis in textile processing.
 Q.34 What is law of mass action?
 Q.35 What is order of reaction.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Briefly discuss concept of pH and its measurement.
 Q.37 Discuss about organic compounds its sources and classification.
 Q.38 Discuss briefly about concept of buffer and its mechanisms.

No. of Printed Pages : 4

182631/122631/032631

Roll No.

3rd Sem / Textile Proc., Text Chem
Sub : Physical & Organic Chemistry / Basic Chemistry

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Schulze-Hardy law relates to
 a) Catalysis
 b) Colloids
 c) Chemical Equilibrium
 d) None of these
- Q.2 When reactants and products are equal, what this condition is called?
 a) Catalysis
 b) Chemical equilibrium
 c) Both
 d) None of these
- Q.3 A reversible reaction can progress in _____ direction
 a) Forward
 b) Backward
 c) Both
 d) None of these
- Q.4 _____ is about effect of change in temp, pressure, concentration of reactants.
 a) Le-Chatlier's principle
 b) Schulze-Hardy law
 c) Both
 d) None of these

- Q.5 pH>7 means _____ condition
- a) Acidic b) Alkaline
- c) Neutral d) None of these
- Q.6 pH>7 means _____ condition
- a) Acidic b) Alkaline
- c) neutral d) None of these
- Q.7 Viscosity of oil can be measured by
- a) Viscometer b) pH meter
- c) Both d) None of these
- Q.8 Knowledge of organic chemistry is important for understanding
- a) Structure of dyes
- b) Properties of dyes
- c) Chemical reaction of dyes
- d) All of these
- Q.9 Removal of oil and fat is done by
- a) Desizing b) Scouring
- c) Bleaching d) None of these
- Q.10 Promoters _____ the rate of reaction.
- a) Increase b) Decrease
- c) No change d) None of these

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 What is a chemical reaction?
- Q.12 Define Gold Number?
- Q.13 What do you mean by order of reaction?
- Q.14 Define catalysis?
- Q.15 What is a true solution?
- Q.16 Define scouring?
- Q.17 Define gels?
- Q.18 What is backward reaction.
- Q.19 When is auto catalysis?
- Q.20 What is reversible reaction.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Write about kinetics of a reaction?
- Q.22 Write a short note on Acid base catalysis Catalysis?
- Q.23 Write about sources of oil and fats.
- Q.24 Write about pH and its scale.
- Q.25 Difference between order and molecularity.
- Q.26 Briefly discuss acid-base catalysis.
- Q.27 Discuss concept of chemical equilibrium.
- Q.28 Write uses of Le chatlier's principle.
