

- Q.28 Write about Galvano engraving.
 Q.29 Write printing of Silk with any one dye?
 Q.30 Why printing of polyamide differs from its dyeing.
 Q.31 Write any two preparatory process for Polyamide.
 Q.32 Write any two preparatory process for polyester.
 Q.33 Write any two preparatory process for Wool.
 Q.34 Why preparation of fabric is necessary for printing?
 Q.35 What are 4 requirements of thickener for printing?

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x10=20)

- Q.36 Explain in detail any Buser/Automatic flat bed m/c?
 Q.37 Explain in detail any one Zimmer screen printing m/c?
 Q.38 Explain printing of P/C blend with disperse/vat?

No. of Printed Pages : 4

182652/122652/032652

Roll No.

5th Sem / Text. Proc, Text. Chem. Subject:- Technology of Printing - III

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 Batik is a kind of
 a) Resist style b) Direct style
 c) Discharge style d) None of these
- Q.2 In printing of reactive dye the thickener preferred is
 a) Binder b) CMC
 c) Sod. Alginate d) None of these
- Q.3 Cotton can be printed by
 a) Reactive dye b) Vat dye
 c) Azoic colour d) All of these
- Q.4 Sodium Hydro sulphite is a
 a) Thickener b) Alkali
 c) Acid d) Reducing agent
- Q.5 British gum is a
 a) Thickener b) Alkali
 c) Acid d) Reducing agent

- Q.6 Glycerine is a
 a) Thickener b) Alkali
 c) Acid d) Hygroscopic agent
- Q.7 Steaming is done
 a) Post printing b) Prior to printing
 c) simultaneous d) None of these
- Q.8 Ingrain dyes are
 a) Azoic colours b) Mineral colours
 c) Oxidation colour d) All of these
- Q.9 For color discharge, the ground color should be
 a) easily removable b) Strong
 c) resistable d) None of these
- Q.10 The auxiliary added to printing paste
 a) Dye b) thickeners
 c) Hygroscopic agents d) All of these

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Printing is _____ (localized/unlocalised) dyeing.
- Q.12 Discharge is a _____ of printing. (Method/style)
- Q.13 Name any 2 discharging agents used for printing of fabric.

(2) 182652/122652/032652

- Q.14 et black colors are printed by _____ (oxidation color/mineral color).
- Q.15 Block is a _____ of printing. (method/style)
- Q.16 Tie and dye is a _____ (Direct /resist) style of printing.
- Q.17 Basic dyes has _____ (affinity / no affinity) for cotton.
- Q.18 "The dyes which gets easily reduced are preferred for discharge style of printing".(True/False)
- Q.19 Cotton has affinity for azoic dyes(True/False)
- Q.20 Cotton is a not easily affected by strong alkali at room temp.(True/False)

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 What are disadvantages of Magnetic squeeze?
- Q.22 What are the advantages of rotary Printing m/c?
- Q.23 Explain working of swivel mechanism.
- Q.24 How will you prepare silk material for printing?
- Q.25 How will you prepare Cellulose Acetate for printing?
- Q.26 What are different applications of digital Printing?
- Q.27 Explain white & coloured discharge Printing?

(3) 182652/122652/032652
