

- Q.29 Explain the process control parameter in ring frame related to efficiency.
- Q.30 Write about advantage and disadvantage of any two types of ring.
- Q.31 How can we improve the quality performance of doubling machine?
- Q.32 Write the work load distribution of ring frame machine.
- Q.33 What is the difference between woolen and worsted yarn?
- Q.34 Write various maintenance schedule adopted in a ring doubling.
- Q.35 How the parameter of hardness of cots decided.

5th Sem / Text. Tech.
Subject:- Spinning Technology - III

SECTION-A

- Q.1 Which of the following is example of Indirect count system?
- a) TEX b) Denier
- c) Metrix count (Nm) d) None of these
- Q.2 Which is part of ring frame?
- a) Lappet hook b) Traveller
- c) Both A and B d) Can
- Q.3 Denier=? * 40 TEX
- a) 360 b) 110
- c) 5315 d) 590.6
- Q.4 Where balloon control ring used in spinning mill
- a) Ring frame b) Carding machine
- c) Draw frame m/c d) None of above
- Q.5 Which yarn is best in strength
- a) Carded yarn b) Polyester yarn
- c) Semi combed yarn d) Comber yarn

- Q.6 Function of traveller in ring frame to impart _____
 a) draft b) twist
 c) pull d) none of these
- Q.7 The ring that help to reduce frictional heat is _____
 a) SU ring b) low crown ring
 c) both a and b d) anti wedge ring
- Q.8 For a given spindle speed, the production increases with _____
 a) increase in TM
 b) decrease in yarn count
 c) increase in yarn count
 d) none of above
- Q.9 The coarsest yarn among the following is
 a) 2Ne b) 10Ne
 c) 20Ne d) 18Ne
- Q.10 If break draft and main draft is 1.5 and 20 which is total draft
 a) 27 b) 30
 c) 25 d) 22

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 What do you understand by TPM?
 Q.12 Name any two type of yarn twist.
 Q.13 What is full form of TM?

- Q.14 What is use of variable pulley in ring frame machine?
 Q.15 Name any two type of traveler.
 Q.16 What is function of ring in ring frame?
 Q.17 Write any two advantage of compact yarn.
 Q.18 Write any two objective of ring doubling machine.
 Q.19 Write the full form of TFO machine.
 Q.20 What is winding length in ring frame machine?

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 What is yarn doubling and its effect?
 Q.22 Write the principle of variable pulley speed in ring frame.
 Q.23 What are the object of a ring frame machine?
 Q.24 What is the difference between compact and normal yarn?
 Q.25 What is function of balloon control rings and traveler?
 Q.26 Write the working of TFO machine.
 Q.27 In a ring frame twist multiplier is 4 and spindle speed is 18000 rpm and count is 36 Ne.
 calculate the front roller speed in inched per minute.
 Q.28 Write about the different type of twist in the yarn.
