

- Q.33 Explain capstan lathe.
 Q.34 Define collets.
 Q.35 Define face milling operation.

SECTION-D

- Note:** Long answer type questions. Attempt any two questions out of three questions. (2x10=20)
- Q.36 Explain horizontal milling machine with neat and clean diagram.
 Q.37 Define the use and selection of hand grinding operation.
 Q.38 Classification of industrial materials and processing methods.

No. of Printed Pages : 4
 Roll No.

202017

1st Year / Advance Diploma in Tool and Die Making Subject:- Workshop Technology-1

Time : 3Hrs.

M.M. : 100

SECTION-A

Note: Multiple choice questions. All questions are compulsory (10x1=10)

- Q.1 The Shape of a rasp cut file is
 a) Triangular b) flat
 c) Half-round d) All of these
- Q.2 Linear measurement is considered very precise with the use of
 a) steel rule b) micrometer
 c) outside caliper d) none of these
- Q.3 The accuracy of micrometers can be checked by
 a) feeler gauges b) slip gauge
 c) Ring gauge. d) none of these
- Q.4 The least count of vernier caliper is
 a) 0.001 mm b) 0.002 mm
 c) 0.02 mm d) 0.01 mm
- Q.5 The head stock in a lathe is situated
 a) on left hand of operator
 b) on right hand of operator
 c) in front of operator d) none of these

(20)

202017

(1)

202017

- Q.6 The lead screw is used for
 a) knurling b) threading
 c) taper turning. d) none of these
- Q.7 Machine used for turning is called
 a) milling b) boring
 c) shaper d) lathe
- Q.8 In gas welding, most commonly used flame is used
 a) neutral flame b) oxidizing flame
 c) carburising d) none of these
- Q.9 The standard colour of hoses for oxygen gas in oxy-acetylene gas welding.
 a) Red b) Black
 c) Brown d) None of these
- Q.10 The cutting edges of a standard twist drill are called
 a) Flutes b) Flanks
 c) Lips d) None of these

SECTION-B

Note: Objective type questions. All questions are compulsory. (10x1=10)

- Q.11 Write the function of outside caliper
- Q.12 What is the function of chisel
- Q.13 What is the use of spanner
- Q.14 Name any two types of gas flames.

(2)

202017

- Q.15 Define Arc welding.
- Q.16 Name any four work holding devices.
- Q.17 Define turning.
- Q.18 Define cutting fluids.
- Q.19 Define milling.
- Q.20 Define grinding.

SECTION-C

Note: Short answer type questions. Attempt any twelve questions out of fifteen questions. (12x5=60)

- Q.21 Explain centre lathe machine with neat and clean sketch.
- Q.22 Explain chuck and what are its different types.
- Q.23 Explain principle of Drilling.
- Q.24 Explain radial drilling machine with neat and clean sketch.
- Q.25 Explain any five characteristics of a good lubricant.
- Q.26 Explain soldering.
- Q.27 Explain forging and its advantages.
- Q.28 Explain plastic deformation.
- Q.29 Explain column drilling machine.
- Q.30 Define jigs and fixtures.
- Q.31 Explain planner.
- Q.32 Define knurling process.
