

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Explain how you models are made?

Q.24 Define binder. Write its characteristics and uses?

Q.25 Explain glaze department control.

No. of Printed Pages : 4
Roll No.

220445B

4th Semester/ Ceramic Subject : Ceramic Processing Technology

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 During casting physical state of body is

- a) Fluid suspension (Slip)
- b) Damp Powder
- c) Dry Powder
- d) Plastic Mass

Q.2 In double acting press pressure is applied from _____ sides.

- a) One
- b) Two
- c) Three
- d) Four

Q.3 The ratio of the fill height to _____ is known as Compaction ratio.

- a) Die Height
- b) Punch Height
- c) Compact Height
- d) All of these

- Q.4 Ford cup is used to determine _____ of slip.
 a) Viscosity b) Density
 c) Surface Tension d) Colour
- Q.5 On increasing pressing pressure the green density of tile _____.
 a) Increases
 b) Decreases
 c) Remain same
 d) First increases then decreases
- Q.6 Which of the following is body preparation department control?
 a) Viscosity b) Abrasion resistance
 c) Compression ratio d) Green MOR

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Moisture content in dry pressing is _____ (0.5%, 25-50%)
- Q.8 Tape casting method is also known as Doctor's Blade process. (True/False)
- Q.9 Isostatic pressing gives _____ density variation. (Least/Highest)

(2)

220445B

- Q.10 With increase in moulding pressure green density _____. (Increases / Decreases).
- Q.11 _____ casting method does not involve plaster of paris moulds. (Tape/Hollow)
- Q.12 Alpha plaster is prepared by calcinations in _____ atmosphere. (Damp/Dry)

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 How will you measure water absorption of tile?
- Q.14 Explain how green density changes with pressure.
- Q.15 How models are made?
- Q.16 Explain pressing operation.
- Q.17 Name any four production controls.
- Q.18 How will you measure viscosity of slip?
- Q.19 Tell the role of Lubricants and Preservatives in tile industry.
- Q.20 How accidents can be avoided in ceramic industry.
- Q.21 List steps of mixing plaster of paris and water?
- Q.22 How applied weight of glaze is determined?
