

Q.21 Describe the general characteristics and structure of viruses.

Q.22 Write short notes on the collection of virological samples.

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

Q.23 Describe in detail the morphology, life cycle and laboratory diagnosis of *Entamoeba histolytica*.

Q.24 Explain the laboratory diagnosis, and prevention of the Hepatitis B virus (HBV).

Q.25 Discuss the morphology, life cycle, and laboratory diagnosis of malaria parasites with labeled diagrams.

No. of Printed Pages : 4

221931/181931/121931

Roll No.

/031931

3rd Sem / DMLT, DMLT(For Speech and Hearing Impaired)

Subject : Parasitology & Virology / Clinical Microbiology- III

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

Q.1 The infective stage of *Entamoeba histolytica* is:

- a) Trophozoite b) Cyst
- c) Spore d) Egg

Q.2 The intermediate host of *Taenia saginata* is:

- a) Pig b) Cattle
- c) Dog d) Man

Q.3 The vector responsible for transmission of malaria parasite is:

- a) *Anopheles* mosquito b) *Aedes* mosquito
- c) *Culex* mosquito d) Tsetse fly

Q.4 The most commonly used fixative for stool specimen preservation is:

- a) Ethanol b) Formalin
- c) Acetone d) Methanol

Q.5 The virus that belongs to the Hepadnaviridae family is:

- a) Hpatitis A virus b) Hpatitis B virus
- c) Hpatitis C virus d) Hpatitis E virus

Q.6 The genetic material of HIV is:

- a) Double -stranded DNA
- b) Single-stranded DNA
- c) Double-standed RNA
- d) Single -Stranded RNA

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

Q.7 The study of parasites that infect humans is called_____.

Q.8 The infective form of Giardia lamblia for humans is the_____.

Q.9 The infective stage of Ascaris lumbricoides is the_____.

(2) 221931/181931/121931
/031931

Q.10 The malarial parasite Plasmodium vivax is transmitted by_____ mosquito.

Q.11 Taenia solium is commonly known as_____.

Q.12 The causative virus of AIDS is_____.

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

Q.13 Define medical parasitology and mention its importance.

Q.14 Write short notes on the general morphology and classification of protozoa.

Q.15 Describe the methods of collection, transport, and preservation of stool samples for parasitological examination.

Q.16 Explain the principle and application of concentration techniques for stool samples.

Q.17 Write short notes on morphology and laboratory diagnosis of Giardia lamblia.

Q.18 Describe the life cycle and mode of infection of Ascaris lumbricoides.

Q.19 Write short note on Taenia solium and Taenia saginata highlighting differences.

Q.20 Discuss the life cycle of Plasmodium falsiparum.
