

SECTION-D

Note: Long answer type questions. Attempt any two questions out of three questions. (2x8=16)

- Q.23 What is texturing process? What are its application and advantage of textured yarn.
- Q.24 Write the comparison between ring, rotor, airjet and friction spun yarns.
- Q.25 With the help of a neat sketch, show the passage of material rotor spinning machine. Explain its working principle also.

No. of Printed Pages : 4

222763 A

Roll No.

6th Sem. / Textile Technology

Subject : Advance Yarn Manufacturing

Time : 3 Hrs.

M.M. : 60

SECTION-A

Note: Multiple choice questions. All questions are compulsory (6x1=6)

- Q.1 Which one is the open end spinning process
- a) Rotor spinning b) Friction Spinning
- c) Both of the above d) None of the above
- Q.2 Rotor spinning count range is
- a) Ne 5-40 b) Ne 120
- c) Ne 80 d) Ne 145
- Q.3 What is the main limitation of ring spinning that led to the development of new spinning systems?
- a) Low productivity
- b) High energy consumption
- c) Limited fiber compatibility
- d) All of the above

- Q.4 TM stands for
 a) Time Management b) TOW Manufacturer
 c) Twist Multiplier d) Two Machines
- Q.5 Weight of Package in rotor spinning is _____
 a) upto 50 kg b) upto 25 kg
 c) upto 5 kg d) upto 1.5 kg
- Q.6 Which yarn will be stronger in Ring spinning/ Airjet spinning _____
 a) Ring spinning b) Airjet spinning
 c) Same d) None of the above

SECTION-B

Note: Objective/ Completion type questions. All questions are compulsory. (6x1=6)

- Q.7 Rotor is made of _____
- Q.8 False twist spinning system name is _____
- Q.9 Give formula for TPI.
- Q.10 Name various techniques of Advanced Yarn Manufacturing.
- Q.11 Count range in Rotor spinning is _____
- Q.12 Weight of Package in rotor spinning is _____

SECTION-C

Note: Short answer type questions. Attempt any eight questions out of ten questions. (8x4=32)

- Q.13 Give the advantage of new spinning system as compared to ring spinning.
- Q.14 Write name of five parts of rotor spinning machine.
- Q.15 Write advantages and disadvantages of airjet machine.
- Q.16 Explain the working principle of friction spinning system.
- Q.17 What are the benefits of heat setting? Explain any one technique with the principle of Heat setting.
- Q.18 What are post spinning operation? Give its objective in man-made fibre production.
- Q.19 What is the concept of Heat setting? Give the names of heat set fibres.
- Q.20 Which properties are improved in drawing process? Explain.
- Q.21 Compare rotor spun yarn with ring spun yarn.
- Q.22 Give the principle of DREF spinning?
